

Horizontal bar 'Stuttgart'

1384214

This Top Class horizontal bar comes with the unique SPIETH double tension system including slide locks for fast and smooth individual adjustment of the tension. The high-tensile stainless steel bar combined with the Reuther scientifically designed shape of the columns, the rail suspension, the pivoting feet and the incorporated pre-tension works as a whole to provide the right amount of dynamic support without sacrificing stability. A fast reduction of the vibration of the rail after releases reduces the risk of errors and injuries.

A worldwide unique construction of SPIETH features a break-proof rail with an additionally built-in steel cable allowing the horizontal bar to stay in consistent tension even if the bar itself breaks down.

Rail holder

High-tensile steel rail with safety cable

FIG certified competition model

Technical data:

- Reference number: 1384214
- Height: adjustable from 265-310 cm with 5 cm increments
- Rail: extremely high-tensile stainless steel, ultrasonically checked, with machined epoxy-coated precision ends with safety cable inside
- Tension system: dual cable tension reuther system with 2 slide locks, 4 tension swivels and 4 chains and 12 D-shackles
- Uprights: heavy-duty epoxy-coated steel; inner tubes chrome-plated
- Feet: round pivoting floor plates with floor protectors
- Rail holders: cast steel alloy
- Anchoring: 4 floor anchors (not included)
- Space occupation: 400x550 cm (excluding landing mats)

Original System Reuther
