

Landing mats 'Moscow' rings

1565832

By using various types of high-tech foam, in combination with the patented handy grips, equal damping characteristics are ensured over the entire surface. The microtunnels in the foam in combination with the handy grips make it possible to have an optimum air outlet regulation. The mat is fully side-stabilized and newly developed polyester webbing is added between the foam layers. The result is a stable mat with a soft needle felt which fully meets the FIG landing mat regulations. The cover is made of reinforced washable PVC with an anti-slip base and covered with densely tufted, heat dispersing needle felt carpet. The handy grips make it very easy to handle the mat. The mat can be linked in all directions thanks to Velcro loop on top of the mat at all 4 sides.

Technical data:

FIG certified.

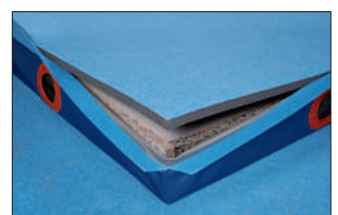

- New development in sandwich construction, additional edge stabilization and durable needle felt surface.
- The handy grips also provide necessary air circulation thus ensuring optimal damping during landings.
- Special latticed polyester material between the different foam layers to provide longer durability.
- Sewed-on Velcro strips at all sides.
- Mats can be linked in all directions.

Total length when placed: 500 cm
Maximum width when placed: 200 cm
Total surface: 10 m²
Height: 20 cm
Reference number: 1565832

Packaging dimensions:
Total volume: 1.62
Total weight: 72 kg
Consisting of:
1 mat of 300x200x20 cm
2 mats of 200x100x20 cm
15 cm wide Velcro, 2x 200 cm long

Handy grip

Core, foam layers
