

Airmat "impuls floor - long" 4m

1740510

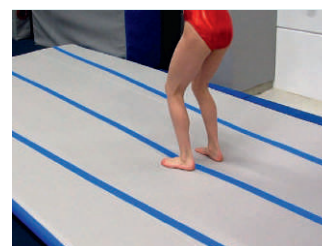

This unit is developed for increasing comfort for floor work and for teaching. Enabling the gymnast to work more with their arms and legs, this unit is inflatable and the pressure level is adjustable, allowing the gymnast to work harder whilst decreasing the stress on their joints. 4m in size and very light, this product is perfect for use in a large variety of acrobatic positions in floor exercises due to increasing the rebound for gymnasts of all levels. Can also be used on a landing pit.

One side with orientation line, other side with 2 extra diverging lines

General information and highlights:

- Inflates within seconds
- Can be used for hand and foot work
 - An alternative for hard landing mats or handspring vaults
- Easier on joints allowing the gymnast to train more often
- Very comfortable to use
 - Soft contact – high quality PVC – no "Phthalate"
 - Adjustable pressure
 - Can be attached using straps to increase comfort during use
- More rebound for light gymnasts and beginners
- Can be used on an open landing pit and provides a lighter, stable surface
- Increases the opportunity for correction for the gymnast and trainer from one side of the mat to the other:
 - a central line allowing correction by sight
 - one side with two extra diverging lines for jumping work
- Can be used by all:
 - from beginners to experts
 - suitable for both male and female gymnasts
 - Well suited to floor exercises, beam work and jumping on a landing pit
- Comes with its own bag, two fastening straps and a repair kit
