

Airmat "Impuls cylinder"

1740520

This unit has been developed to aid learning and working with basic acrobatic exercises such as correcting handstand positions, torso flexibility, "Menichelli", back flips... It allows younger and beginner gymnasts to practise these exercises more comfortably. It provides more experienced gymnasts the opportunity to perform a wide range of basic muscle strengthening exercises.

General information and highlights:

- Inflates and deflates within seconds. Takes up less storage space
- Light and easy to move
- Facilitates basic acrobatic exercises in floor work
- Easier on joints allowing the gymnast to train more often
- Comfortable to use
 - Soft contact – high quality PVC – No "Phthalate"
 - Adjustable pressure
 - Can be attached using straps, which increases the user's comfort
- Can be used by all:
 - From beginners to experts
 - Suitable for both male and female gymnasts
 - Suitable for floor work but also suitable for many other types of exercises
- Comes with its own bag, two fastening straps and a repair kit

Technical data:

Width 80 cm
