

# Aerobic floor 'Baku'

**1790560**

The SPIETH Aerobic floor meets the highest requirements for highlevel competition and training. The active spring force and cushioning are coordinated in order to provide superior shock absorption and extra wrist protection. The basic plates with foam elements are connected by means of flexible lamels made of reinforced polypropylene, ensuring an easy and quick installation. Outstanding dynamics and attractive design! Total size 12x12 m, height 7.5 cm. Including marking tape.

**Technical data:**

FIG certified.

- The floor is very easy to assemble and offers outstanding dynamics.
- Strongly reduced chance of slips and injuries.
- 50 multi-layer high pressure glued wooden plates (each 240x120 cm) with a top layer developed especially for Aerobics.
- 2600 high quality foam elements carefully positioned for optimal dynamic properties.
- 130 resilient coupling strips, improved tongue and groove system, together with a system of 17 tension straps to lock the sections in their positions, provide a perfect homogeneity over the entire surface.
- The floor is finished off with 4 PVC skirts provided with Velcro.
- Suitable for TV recordings because of non reflecting surface.
